

**TECHNICAL SPECIFICATION**

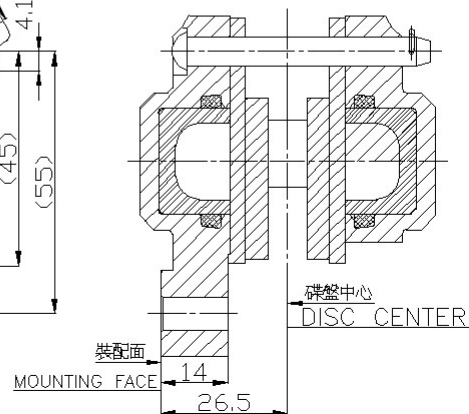

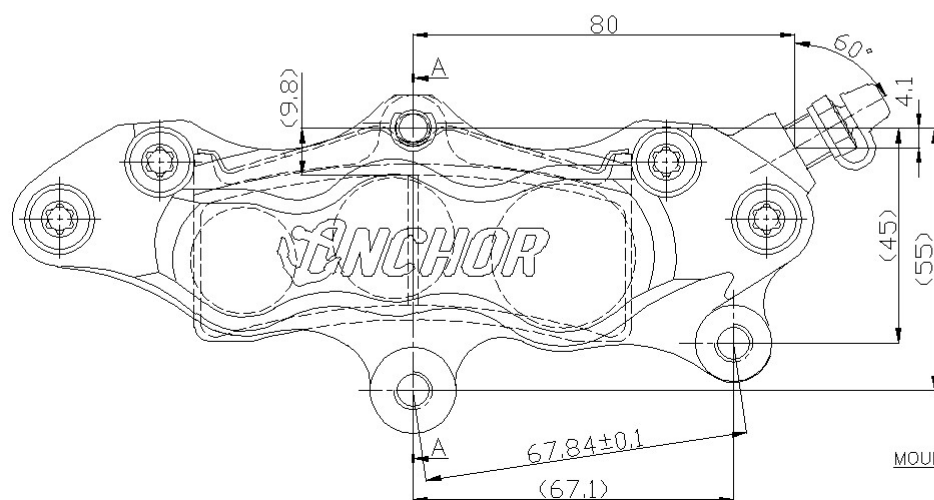

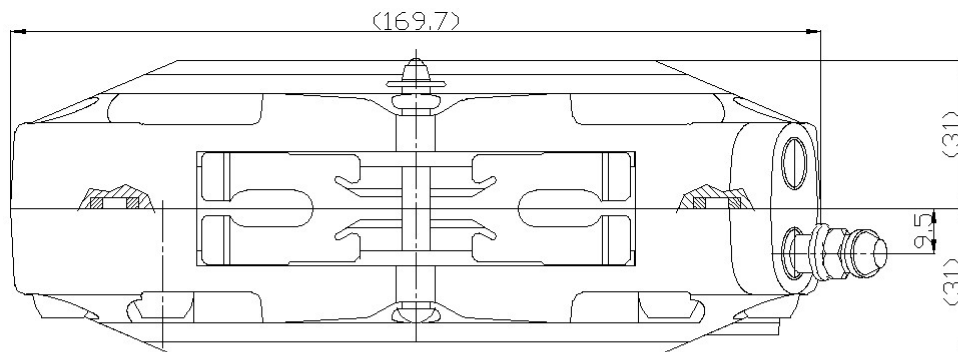

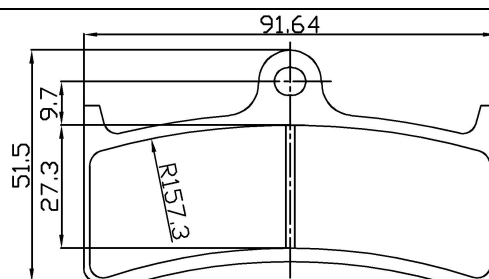

|                   |                                                                                                         |                  |                                |
|-------------------|---------------------------------------------------------------------------------------------------------|------------------|--------------------------------|
| Piston Size       | $\phi 22.22\text{mm} \times 2 + \phi 25.4\text{mm} \times 2 + \phi 30.23\text{mm} \times 2$ Length:15mm |                  |                                |
| Piston Area       | $16.1\text{cm}^2 \times 2$                                                                              | 'PL' Dimension   | 45.2mm                         |
| Piston Material   | SI5C, Aluminum Alloy                                                                                    | Caliper Body     | 2 pieces                       |
| Disc Diameter     | $\phi 320(\text{MAX})\text{mm}$                                                                         | Caliper Material | Aluminum Alloy Gravity Casting |
| Disc Thicknesses  | 3.5(MIN)~5(MAX)mm                                                                                       |                  |                                |
| Weight(Less Pads) | 0.76kg                                                                                                  |                  |                                |
| Hydraulic Threads | M10*1.25                                                                                                |                  |                                |
| Mounting          | Axial(Lug)                                                                                              |                  |                                |
| - centres         | 67.84mm                                                                                                 |                  |                                |
| - offset          | 26.5mm                                                                                                  |                  |                                |
| - threads         | M8*1.25                                                                                                 |                  |                                |

**PAD FAMILY(JPH-326W)**Pad Area=24.6cm<sup>2</sup>

Pad Depth=27.3mm

Pad Thickness - Organic=7.7mm(plate thickness 3.2mm)

Pad Weight =0.2kg(2 pieces)

unit:mm
